

IMPACT CASE STUDY

My Suma is a Portland-based nonprofit that creates community-led digital tools to help families save money and access essential resources. By connecting local organizations, small businesses, and households, My Suma works to make everyday essentials, like food, utilities, and transportation, more affordable and equitable for everyone.

B-Line PDX + SUMA: Tech That Hauls More Good

At the intersection of pedal-powered logistics and community transformation, **B-Line PDX** and their nonprofit **SUMA** are redefining what it means to move with purpose. But even mission-driven momentum needs digital horsepower.

That's where PIE came in.

PIE helped B-Line switch to Google Workspace with no disruption. The upgrade improved security, simplified admin, and boosted collaboration across their food justice programs.

Now, every tool (from email to calendars) supports their mission. With PIE handling the tech, B-Line stays focused on delivering impact in Portland.
