IMPACT SUMMARY

Turning Microsoft expenses into community joy!

In 2024, Sensiba's Microsoft expenses not only kept their business running, but they also created a meaningful impact in their Fresno office community. Through PIE, part of their annual spending generated \$4,426, which Sensiba directed to the Fresno Art Museum to sponsor their FAMily Nights events.

Thanks to **Sensiba's sponsorship**, the museum hosted **two free community days**, in May and December 2025, filled with art-making, performances, storytelling, and joy for families across Fresno. Each event made art and culture more accessible to everyone, regardless of income.

A ripple of impact

Through PIE, Sensiba turned a routine business expense into an opportunity to uplift local arts and families. This partnership shows how purpose-driven companies can create real, lasting impact — without additional cost — simply by aligning their everyday spending with their values.
