

CASE STUDY

Subaru of Bend, TS&S Ford, and Approved Auto are iconic family-owned dealerships in Central Oregon.

These dealerships are deeply purpose-driven, supporting dozens of local causes every year.

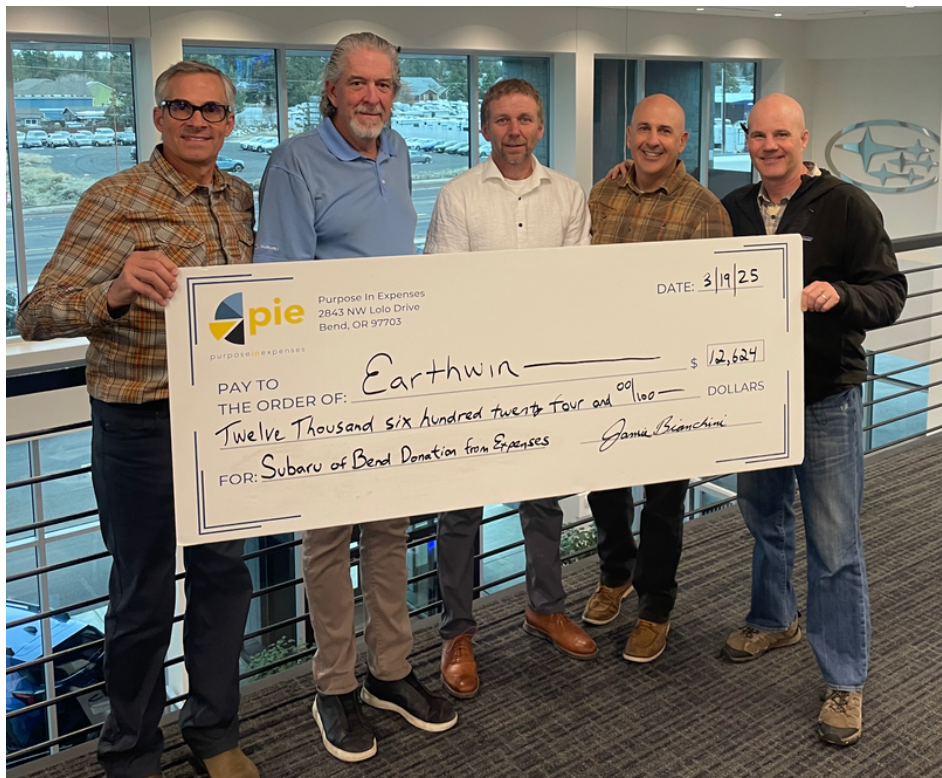

The leadership team engaged PIE to unlock available capital to increase profitability while also allowing them to support even more worthy causes. In the first year, the PIE partnership created:

\$200,000+

Savings with PIE's Purpose-Powered Payment Processing

\$12,624

Annual 2024 donation by PIE to local nonprofits.

"It brings our team great joy to support our community. It's personally painful to say no to a good cause when they ask for support and our budget is tapped. PIE's business model allows us to say yes to more of the causes we love by just paying our bills. It's easy. If everyone becomes a PIE member our nonprofits will be funded. A brilliant model I suggest all business leaders investigate."
