IMPACT CASE STUDY

Donation Made at Topa Topa's Anniversary Celebration Supports CINPF Fire Restoration

IMPACT SUMMARY

Topa Topa Brewing is a California-based craft brewery with five locations across the Santa Barbara and Ventura regions. As a proud **1% for the Planet member**, they are committed to directing at least 1% of their annual revenue to environmental causes.

Through their **PIE partnership**, every card swipe across their five locations quietly generates a donation to **Channel Islands National Park Foundation** without adding a single dollar to their operating costs. In fact, PIE saved Topa Topa thousands on payment processing. And because CINPF is a **1% for the Planet nonprofit partner**, PIE's donations count directly toward Topa Topa's annual giving commitment, thus liberating essential working capital for Topa Topa.

Since joining PIE in May 2024, Topa Topa's payment processing expenses have generated **\$14,011** for Channel Islands National Park Foundation. PIE's most recent \$10,000 donation came just in time to support restoration efforts after a fire tore through Santa Rosa Island. These funds provided essential relief – and cost Topa Topa nothing.
