Payment Processing

CASE STUDY:

TS&S FORD + FAMILY ACCESS NETWORK PRINEVILLE

More Than a Dealership: TS&S Ford Transforms Routine Business Costs into \$4,000 for Children and Families Who Need It Most.

IMPACT SUMMARY

TS&S Ford is one of Central Oregon's most beloved family-owned dealerships — deeply rooted in Prineville and long committed to giving back to the community it serves.

By partnering with Purpose In Expenses, TS&S Ford transformed their everyday payment processing expense into a recurring \$4,000 donation to Family Access Network — without increasing costs or changing how they do business.

Family Access Network embeds dedicated advocates directly inside Crook County schools, connecting children and families to essential resources — food, clothing, shelter, and health care — so kids can show up ready to learn and families can find a path forward.

Now, every card transaction processed at TS&S Ford quietly contributes to the children and families who need it most. No extra cost. No extra effort. Just purpose powered by the bills they were already paying.

TESTIMONIAL

"It brings our team great joy to support our community. PIE's business model allows us to say yes to more of the causes we love by just paying our bills." — **Matt Thomas, Owner, TS&S Ford**
